

## DOCTORAL CONSORTIUM

In the context of the IV International Congress of Management Sciences - COINGES 2022, doctoral students are invited to submit their doctoral research projects to participate in the Doctoral Consortium in Management Sciences of the Pontifical Catholic University of Peru to be held on **October 19, 2022 in Lima – Peru.**

The call covers all areas of Management Sciences and involves a review process for the acceptance of proposals. Accepted doctoral students will have a 15-minute to make their presentation and will receive feedback from a panel made up of leading researchers in the field of Management Sciences.

- The application must be sent through the [EasyChair](#) platform.
- For inquiries write to the email: [Congreso.gestion@pucp.edu.pe](mailto:Congreso.gestion@pucp.edu.pe).

### **Important dates:**

- **June 15th:** Extended deadline for submissions.
- **July 15th:** Notification of acceptance and delivery of suggestions for improvement.
- **August 15th:** Deadline for final Doctoral project document.
- **October 19th:** Doctoral Consortium and COINGES 2022 roll-out.

### **The files requested for the application are:**

1. Cover letter from the doctoral advisor on the progress of the research project (mandatory information: name of the Institution, name of the doctoral program, name of the doctoral degree to be obtained, email address of the advisor). The document should not exceed one page.
2. CV of the doctoral student (must include email address) with a maximum length of one page.
3. Doctoral project document written in Spanish (entitled "Research Proposal") that summarizes the research design and/or its findings.

### **About the doctoral project document**

- Must include:
  - Topic, problem and research question
  - Theoretical framework
  - Methodology
  - Preliminary and/or expected results
- Submitted in PDF format, in Spanish, with an extension of 2000 to 4000 words (without references).

- The doctoral student and the advisor must be identified with their names, surnames, emails, affiliation and Orcid ID on the first side of the document.
- Abbreviations must be defined the first time they are used and must not be included in the title.
- The submitted proposal for the doctoral consortium does not exempt the author from participating in the presentations in thematic tables.

### About COINGES

The **International Congress of Management Sciences (COINGES)** is an event that brings together the management community and integrates the academic and professional world in its different participation alternatives such as master and doctoral presentations, academic presentations, poster exhibitions, workshops, among others. Its main objective is to connect and bring the knowledge generated in research closer to the practice of organizational management given its transformative potential.

COINGES, organized by the [Academic Department of Management Sciences - PUCP](#), maintains, in all its editions, a perspective that distinguishes and intertwines different transversal, functional, sectoral and industrial approaches that are part of the field of study of Management Sciences. To do this, it takes into account the progress and development of organizations that are closely related to this discipline and the Peruvian and Latin American environment.

In line with this proposal, the different thematic axes that COINGES has known, in its still short history, have raised challenging questions that for Management Sciences represent the future of organizations.

Thus, the first edition of the Congress had as its theme "Innovation Management and Innovation in Management", where the importance of assuming the need for innovation was convened, not only as a matter that concerns the capacity of organizations to carry it out, but to the academic discipline itself to incorporate this transversal and unavoidable consideration for its own theoretical, methodological and empirical development. The second edition, in turn, had the theme "New trends and frontiers of Management", which in itself directly installs the concern for the renewal of approaches and styles of thought to take charge of the complexity of organizational matters. In the case of the III COINGES, the theme delved into the concerns of Management around its transformative dimension and its future perspective in relation to that great horizon of human development in contemporary societies that is given by the Sustainable Development Goals.

### About the Academic Department of Management Sciences PUCP

The Academic Department of Management Sciences (DACG) of the Pontifical Catholic University of Peru, created on December 19, 2005, brings together the faculty of our university, who, due to their dedication to study, research, teaching and social responsibility are related to the field of management sciences. Attached to the Faculty of Management and Senior Management (FGAD), the Department serves all the academic units in which activities related to the area of management are carried out.
